NORFOLK’S ORIGINAL FIFTY ACRES

John Freccero, County Surveyor 1680 - 1681
John Ward, City Surveyor 2006 - Present

This map depicts the original fifty acres of Norfolk overlain upon 2013 imagery. This was created in multiple steps:

First, the original "Norfolk Towne, St. Acres, 1680" map was scanned.

Next, city staff conducted on-site field checks to delineate sites that still exist today.

Then, field crews were sent out to collect GPS coordinates on the previously determined locations.

Finally, the scanned image was georeferenced to the GPS points and the fifty acre boundary was digitized by a city technician.

2013 imagery is property of Photography International
Map created October 2008, Updated 2013.

This map is for graphic purposes only.
